Dear Dr. Marcarian:

I just want to thank you for the great job you have done on my teeth. I can't believe they are straight already only in one year.

You made me so comfortable from the first time I came to your office, with your professional and caring manner. You even rang me when I was at home the evening after you had worked on me to see if I was ok and not in any pain, in which meant a lot to me that you actually cared after I left the office. And I've got to thank the staff as well because they're great too. They are so friendly and caring, everyone's so helpful. You're the best Dr. Marc, that's why I fly all the way from England to get my teeth done by you.

Dear Dr. Marcarian:

I want to thank you for a great experience at your office!

Even during my first visit, you put me at ease with your personality and professional, caring manner. This also extended to you staff, who were friendly and understanding. As for the procedure, it was painless and my implants feel like my own teeth. I also appreciate the fact that you were concerned enough to call me later at home to follow up, making sure I was in no pain.

All in all, you made what could have been a lengthy and frightening experience quite pleasant.

You are quite simply wonderful, "Dr. Mark"!
